

ELIGIBILITY CRITERIA

step into your life

The following criteria must be met to be eligible for the program.

1. You must be 18 years or older.

2. You must have a Body Mass Index (BMI) of 30 or greater.

If you have an obesity related illness such as diabetes, high blood pressure, or arthritis your BMI must be 27 or greater. There are multiple websites or apps available to calculate your BMI or your provider can calculate your BMI for you.

3. You must have controlled and stable health conditions.

If you have any other illnesses, they should be stabilized prior to starting this program. For example, if your diabetes is out of control, or your blood pressure is poorly controlled, please consult your primary care provider for advice prior to committing to the program.

We reserve the right to decline to enroll you in the program if any of these conditions are significantly out of control or unstable.
